CONVERSION, RENOVATION AND NEW BUILD FOR PRIVATE HOMES, DEVELOPMENTS AND LIVE/WORK SPACE, AS VARIED AS THE SITES AND THE OWNERS, PLANNED AND DETAILED TO THEIR HOUSE-STYLE NOT OURS.

01 Home

70s co-op housing opened up and re-planned with custom storage to link spaces, maintain views to shared gardens and complement a collection of mid-century furniture and art.
WELLINGTON MILLS ●

A project that began with a plan to extend an artist's house, and ended with a simple solution of designing furniture to link spaces and display precious things; less is more in practice
 ● **LOWER COMMON SOUTH**

An original canal-side warehouse stripped back to uncover the essential character of the building; repaired, restored and re-lit, only the minimum added for unstructured modern living.
