PROJECTS FOR PUBLIC, CORPORATE AND MEDIA CLIENTS THAT BEGIN WITH ANALYSIS OF BUSINESS CULTURE, PLACE EQUAL VALUE ON PRACTICALITY AND LOOKS, AND FINISH WITH REAL CHANGES IN WORKING LIFE.

02 Work

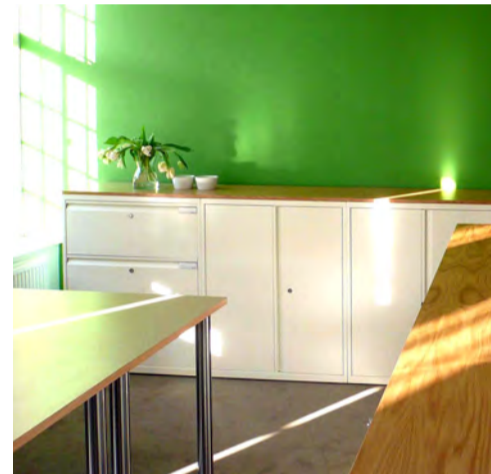

An 1880s union building in Richmond restored for contemporary use with careful repairs, integrated technology and sympathetic finishes.

● LITTLE GREEN

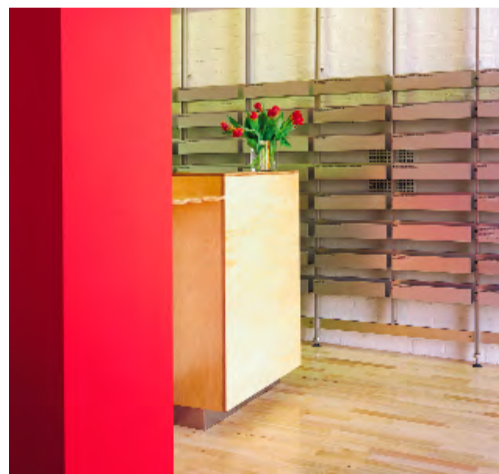

Complete re-design of building fabric, services and furniture following analysis of the working practice and personality of this independent publishing company: open and organised, made to facilitate conversation and communication.

LONDON REVIEW OF BOOKS ●

Custom furniture accommodates reception and divides the main space in this converted bus shed, colour and material unify and identify the site shared by a mix of creative and start-up businesses.

● OMNIBUS WORKSPACE

The first of three Covent Garden offices for a brand consultancy whose company ethos of transparency and confidence is reflected in the planning of the space, choice of material and quality of the furniture.

BRANDSMITHS ●

A commercial brief to differentiate the site and raise the profile of a multi-let building: modern finishes update interior spaces and graphic light boxes act as beacons along a quiet Southwark street.
